## PROPOSAL (Summary of the proposal)

### PREAMBLE

Humanity, the cradle of cultures and civilizations, has evolved over time. This evolution, however, has not served to achieve a level of civilization that allows us to meet the needs of all.

The precariousness in which much of humanity lives, inequality, injustice, exploitation, plundering, pollution, global warming and the lack of consideration and respect for the natural environment that surrounds us, reveal the inefficiency and the destructive drift of our political, social, and economic models.

For all this, the citizens of the world, women and men, free and conscious, manifest through this initiative "First Universal Constitution", their desire and will to create a new world based on ecology, mutual collaboration, equity, justice, Equality, freedom and fraternity.
